About Me

Product Manager with 4+ years of experience in B2B SaaS, Fintech, and digital platforms, combining end-to-end product ownership with hands-on AI-assisted execution. Experienced in translating customer needs into product requirements, leading cross-functional delivery, and using tools such as Claude Code, Codex, and Stitch to prototype, design, and ship solutions in fast-moving environments.

Professional Experience

Product Manager

5/2025 - TODAY

Financial, early-stage startup (Petah Tikva)

- Lead a financial platform & ERP from pre-launch through MVP
- Own roadmap, prioritization, and product requirements in a fast-changing startup env.
- Led integrations with external 3-party API financial providers & government services.
- Defined scalable solutions across the business, operations, vendors, and technical teams
- Integrated AI tools into product workflows to improve efficiency
- Delivered rapid prototypes and feature flows using AI-assisted tools, improving overall team delivery by 20%.
- Hands-on use of AI tools including Claude Code, Codex, and Stitch to rapidly prototype solutions, execute design and lightweight implementation tasks, and accelerate delivery.

Product Manager

4/2023 - 5/2025

Moonsite, Software development company (Fintech sector) Rehovot

- Managed end-to-end delivery of Web, Mobile, and Fintech products for B2B and B2C clients.
- Led end-to-end product processes across products, from discovery and customer analysis to requirement definition, execution, and launch, through to customer satisfaction.
- Worked closely with design and technical teams to deliver effective user experiences.
- Led complex integrations with ERP systems, government services.
- Worked with key domains including Menora Mivtachim, ERN, and Bar-Ilan University.
